the house is under call and I will recognize Senator Warner for closing.

SENATOR WARNER: Thank you, Madam President, I will close as people are coming in. Briefly, this is the portion of the amendment that does provide for 80 percent of the refund, lessens significantly the impact on agriculture that has been the basis of discussion for several days. It is intended along with the rest of the amendment to protect the General Fund so that it is neutral on that basis. I do believe as others have pointed out that it will lessen the impact of border bleed. It certainly becomes a very significant factor to the individual who fails to pay the use tax by the fact that they would not be able to get a refund on that use tax that they fail to pay plus they would have the problem, if they didn't depreciate the...didn't file the piece of equipment as depreciable property at the county level, but I do think it is a step toward trying to reach a reasonable solution to this problem, lessen the impact on agriculture, protect the General Fund and hopefully the body will adopt the amendment.
